

LEARN-IT will not replace your curriculum. Rather, your teachers can create **homework Learn-Files** with information from it. Then your students will really **LEARN-IT!**

# LEARN-IT™

## Software that makes paper flash cards obsolete

Learn Fast Trust -- PO Box 73486, Houston, TX 77273-3486

Dear Christian Educator,

In links below, you will find three sample flyers for a fund raiser that focuses on education -- with a unique evangelistic outreach. We will customize these flyers for your school and send them as printable pdf files. Versions for web pages or attachments to e-mails will also be provided.

We offer **LEARN-IT** for \$24.95 + \$5 for s&h at [www.learn-it.info](http://www.learn-it.info). Your school's cost is \$9 each for 12 to 49 programs, \$7.50 each for 50 to 199, and **only \$7 each for orders of 200 or more** (all prices include shipping). While you can set any price, we suggest that you offer it as a gift to anyone who makes a contribution of \$17 or more to your school. They will probably average \$20, or even more.

As a fund raiser, **LEARN-IT** will bring in some initial income. **But, enlarging your donor base and building meaningful relationships with donors is much more important than the initial income.** To fulfill both goals, you should first commit to preparing weekly Scripture memory Learn-Files for your students and donors. Each week's file should have about seven new Bible verses, plus some from previous weeks for review. It will only take a few minutes to develop each week's Bible verse Learn-File and send it using a bulk e-mail program. The e-mails should include news about your school.

After they sink their spiritual roots into your school, the donors will be prime prospects for future fund raising appeals. **Some donors may feel like they have become e-alumni of your school, and make future donations that will far exceed all of the initial income from this effort.**

As a parent, I developed this software to help my son with his home work. As a staff member of Campus Crusade for Christ, and as the pastor of Grace Bible Church in College Station, Texas, I tested and refined presentations of the Gospel and Christian evidences in many personal conversations with skeptics.

With that preparation, I developed audio CDs we include (as gifts) with every **LEARN-IT** program. ***Understanding Bible Prophecy*** presents the historical context for Old Testament prophecies that clearly establish that Jesus was and is the Messiah. ***The Resurrection His and Yours*** presents solid evidence for the resurrection of Jesus Christ -- our living Savior. Both have clear presentations of the Gospel. **Yes But FAQs** deals with the most frequently asked questions posed by skeptics after I present the Gospel.

Because my priority is the Great Commission, **we will not allow anyone to sell or give LEARN-IT if they will not include these evangelistic CDs with the software program. So public schools pass on it.** But that opens a wide door for your school to use it as a fund raiser, and an evangelistic tool to help communicate the Gospel. Your market includes families with public school students, home schoolers, college students, people in the work force who have information they must learn, and even elderly retiree's. Every family that is serious about education should have **LEARN-IT** on their computers..
